

## LEGAL AND ADDITIONAL INFORMATION

THE NEW  
BUSINESS  
EXPERIENCE

**SAMSUNG.**  
PRINTING INNOVATION.

In modern society, keeping up with technology is critical to the success of any business or the productivity of any individual. The choice of technology can be the difference between survival and leadership.

As the workplace becomes more digitized and the workforce becomes more mobile, printer and copier devices must also adapt and evolve.

Printer technology and satisfaction lag the electronics innovation most employees expect. Nor has there been any major entrant to help shake change.

Until now.

Samsung is applying its ingenuity to develop breakthrough printing solutions that ignite productivity. Only Samsung has the electronics expertise to design and build a printer that fits the way society works today.

Printing for the modern world has arrived.  
**Samsung is printing innovation.**

Samsung A4 Mono Laser Printer

# ProXpress

M4530NX | M4530ND

Built for Reliability and Low-Cost Simplicity

THE NEW  
BUSINESS  
EXPERIENCE

**SAMSUNG.**  
PRINTING INNOVATION.

**SAMSUNG**

## ENHANCE YOUR WORK CAPABILITIES WITH SOLID, COST-EFFECTIVE PRINT INNOVATION

### Elevate business with high-volume, hassle-free printing

In today's driven marketplace, businesses must continuously rethink and innovate their strategies to maintain a competitive edge. Efficiency and manageability are top of mind for enterprise and small and medium-sized businesses alike, as they seek to improve their business performance and their bottom line.

Business tools—particularly printers—have emerged as a key area of focus for improving cost efficiencies and performance. Businesses need reliable, low-maintenance print solutions with the capacity to handle even the most demanding print jobs. Plus, these printers must deliver advanced functionality, such as manageability, rich security and mobile printing, while still holding down costs.

Samsung's flagship A4 mono laser printer ProXpress M4530NX / M4530ND powers business with reliable, secure performance while lowering total cost of ownership (TCO). Its robust and hassle-free design solves common document-handling and upkeep hassles with low maintenance and easy manageability—musts for today's small- to enterprise-sized work groups.

#### Samsung ProXpress:

M4530ND  
(45 ppm)

## PROCESS PRINTS AT SUPER-FAST SPEEDS WITHOUT SACRIFICING QUALITY

### Boost print performance with more speed, quality and storage

#### Fast, high-volume print processing with zero fuss

ProXpress M4530 Series prints at fast speeds of up to 45 pages per minute (ppm). The 1 GHz dual-core CPU provides the power and capacity to accomplish print and copy jobs of any size or complexity. Businesses can work smoothly and operate at a much more efficient level with high-performance speed printing. Plus, the 1 GB standard memory<sup>1</sup> drives productivity levels with high-volume printing and the power to handle more print jobs at once.

#### Get sharper-quality print output

Samsung's unique Rendering Engine for Clean Page (ReCP) technology delivers professional-quality output with sharp text and clean images, ensuring a perfect-looking printout every time. And with a superior resolution of 1,200 x 1,200 effective dpi, both your printouts and company will always look polished.

Edge Enhancement

Negative Sharpening

De-ICE  
(Integrated Cavity Effect)

De-Screening

#### Store more print jobs

An impressive 320 GB standard hard disk drive (HDD)<sup>2</sup> gives you all the space you need and more to store print jobs for pull printing. Wirelessly print from anywhere; then, from any networked printer, simply "pull" or release the print job from your virtual queue at any time. ProXpress M4530 Series' 320 GB of storage ensures your print job will be safely stored and ready to pull when you are.

#### Reliable performance when it counts

ProXpress M4530 boasts a durable build, specially designed to cope with the pressures of business. With a high monthly duty cycle of up to 200,000 sheets, businesses can rest assured that ProXpress can keep up with their print demands. And thanks to the unique anti-jam friction roller system, M4530 significantly reduces the occurrence of multiple sheet pickups, misfeeds and paper jams—keeping workgroups working.

<sup>1</sup> 1 GHz dual-core CPU is available on M4530NX model only.  
512 MHz dual-core CPU is available on M4530ND model only.  
<sup>2</sup> 320 GB standard HDD is available on M4530NX model only.  
Storage is not available on M4530ND model.

## CONSERVE COSTS AND RESOURCES WITH ULTRA-EFFICIENT FEATURES

### Drive productivity while lowering TCO

#### Efficient consumables for high-yield productivity

Businesses can handle heavy printing volumes while reducing labor costs with ProXpress M4530 Series' ultra-high-yield toner cartridges and drums. Flexible options range from toners that yield 40,000 standard black and white pages, while drums yield 100,000 standard black and white pages. These long-life consumables ensure businesses get the most out of their resources, resulting in lower TCO.

#### Ready toner and paper savings at your fingertips

Lower toner and paper usage are just a touch away with the One Touch Eco Button. With a push of a button, businesses can activate instant savings with 2-up printing (two pages on the same side) and duplex printing (printing on both sides). The savings continue with the option to skip blank pages using the Toner Saving Mode. All these eco settings can be easily adjusted using Easy Printer Manager.

#### Cut costs with fewer replacements

By separating the toner and drum cartridge, Samsung has enabled users to reduce TCO even further by replacing the drum unit only when required, rather than with every new toner cartridge. Add to this the extra-high capacity toner cartridge, and you have a truly economical office printing solution.

#### Eco printing that's easy on the budget

Award-winning Samsung Eco Driver extends cost savings with eco options that reduce toner and paper use by up to 20 percent, while easing energy consumption. Preview and edit quality, text and images before printing, and even monitor paper, toner and energy usage to economize your printing.

## ENJOY PEACE OF MIND AND THE FREEDOM TO PRINT SECURELY FROM ANYWHERE

### Print easily yet safely on the go with robust document security

#### Easy, secure touch-to-print functionality

The simple-to-use 4.3" touchscreen<sup>2</sup> or 4-line LCD control panel and built-in numeric keypad offer convenient access to a wide array of features and settings. And with the numeric keypad, users can safeguard personal and confidential documents by entering a required PIN to release print jobs.

#### Intuitive cloud-based mobility and security

Samsung Cloud Print™ (SCP)<sup>1</sup> enables intuitive connectivity between mobile devices and printers, enabling you to effortlessly create, share, edit and print documents from anywhere. Seamlessly manage document flow from creation to print while on the go. Plus, embedded security solutions offer safe access to business-critical data.

#### Seamless manageability with a secure platform

XOA Web platform supports an array of server-based productivity solutions to meet your specific business needs. Without the need for complicated hardware specifications, your business can seamlessly run your custom or independent software vendor (ISV) solutions on this web-based platform for peak business performance. Plus, your business can safeguard corporate confidentiality with security-enhanced functions.

#### Mobilize your printing with just a tap

The Samsung Wireless and Near-Field Communication (NFC) option supports convenient mobile printing and intuitive keypad functionality for secure print release:

- **User authentication:** Authorize printing to a Samsung MFP directly from your mobile device.
- **Secure printing:** Use your mobile device to authorize secure release of documents held in the printer's memory for retrieval.
- **Easy wireless setup:** Configure print functions from your mobile device without complicated activation steps.
- **Device cloning:** Create a multi-device network environment from virtually anywhere using your mobile device.

<sup>1</sup> SCP(Samsung Cloud Print) 1.0 is available only in Korea. It will be released in major 9 countries (KOR,USA,CAN,GER,UK,ITA,FRA,SWE,NOR) March 30, 2015.  
<sup>2</sup> Touchscreen panel is available on M4530NX model only.

# CUSTOMIZE YOUR MLP WITH FLEXIBLE OPTION PARTS

## Select from a range of options to create a tailor-made MLP

### Configurable devices for optimized performance

Businesses of varying sizes and industries can meet their specific needs with ProXpress M4530ND / M4530NX's unique configuration capabilities. Factory-provided modules serve as a basis upon which differing components are chosen along with a wide array of optional components, including, but not limited to, a wireless and NFC option and various stand sizes.
